Healthy Partnership Program

For sport, arts, racing and community groups

Guidelines for funding applications **over \$5,000**

At Healthway, we aim to build a healthy Western Australia (WA).

We do this by working in partnership with community organisations to inspire Western Australians, especially young people, to live healthier lives.

Through our Healthy Partnership Program we provide funding to sport, arts, racing and community groups to create healthier communities that encourage good health now and into the future. Our partners play a valuable role in supporting our vision of creating a healthy and more active WA.

Over \$5,000 funding

The objectives of our over \$5,000 Healthy Partnership Program are to:

- **Educate and raise awareness about good health** to support healthy choices
- **Create healthy environments** within organisations and venues
- **Reduce the promotion of unhealthy messages or brands** which do not align with good health
- **Provide opportunities for participation** in healthy activities particularly among Healthway's priority populations
- **Build the capacity of organisations and the community** to advocate for health promoting culture, norms and practices

These guidelines provide an overview of our funding requirements and application process for grant funding over \$5,000. There are separate **guidelines** ([hyperlink](#)) when the amount requested is \$5,000 or under.

Support to develop your application

As part of the application process you will also be required to develop and submit a Health Promotion Plan. This is an opportunity for you to identify what you think will work best in achieving better health outcomes within your community. A template Plan is available for download and supporting resources.

To support you in developing your application, Healthway has designed a **Toolkit** with a Best Practice Guide, health information, resources and case study examples. The Toolkit is available on the **Healthway website** [\[LINK\]](#). Our Healthy Partnership Team is also available to help and can work with you on developing your ideas for your project.

1

The Best Practice Guide is a step-by-step guide to help you develop your project ideas and complete an effective Health Promotion Plan.

A completed Health Promotion Plan is a requirement of our Over \$5,000 program.

The Plan gives your organisation an opportunity to map the key activities that your project will deliver to improve health in your community.

The Best Practice Guide takes you through this step-by-step process.

2

The Toolkit includes key information and facts on our five priority health areas, including information on why the health issue you are addressing is important in the community. It also shows that health issues are often inter-related and influence each other.

The Toolkit also includes resources to help you in developing effective communication and education strategies you may wish to include in your Health Promotion Plan.
